Procedura per il contenimento del rischio assembramento all'interno del luogo dell'evento

Il Presidente redige il programma della manifestazione il più possibile pianificato in modo da dissuadere eventuali condizioni di aggregazioni e da regolamentare i flussi degli spazi di attesa e nelle varie aree per favorire il rispetto del distanziamento sociale di almeno 1 metro, ad eccezione delle persone che in base alle disposizioni vigenti non siano soggette al distanziamento interpersonale; detto ultimo aspetto afferisce alla responsabilità individuale.

Allo scopo di evitare gli assembramenti si mettono in atto i seguenti protocolli.

- E' interdetto l'accesso al pubblico- l'evento sarà effettuato "a porte chiuse"
- E' imposto dal Presidente il rispetto della distanza di sicurezza tra persone non appartenenti allo stesso nucleo familiare
- Si prevedono accessi contingentati in base a un programma di ingressi. Gli atleti, dovranno comunicare almeno mezz'ora prima il loro arrivo al n. 3408589088- in modo da evitare code e assembramenti.
- Il numero massimo di persone è calcolato in base alla capienza degli impianti. E' stimato non meno di 7 mq di superficie di calpestio a persona
- Il presidente in base ad un' accurata programmazione ,valutate le dimensioni delle strutture del Campo Sportivo di Ponticelli che consentono ampiamente il distanziamento tra gli atleti, coordinandosi con il responsabile del Protocollo Anticontagio individuerà e segnerà appositi percorsi di entrata ed uscita dal campo gara e le cool area che saranno nominative ed invadute tramite apposita cartellonistica.
- Per quanto riguarda l'uscita dei cavalli al di fuori delle strutture per l'allenamento il controllo non è di competenza del Presidente ma bensì è ammesso dalla normativa attuale pur mantenendo il distanziamento che peraltro è effettuato in modo naturale nella disciplina specifica.

Rischio ingresso di un positivo o potenziale positivo all'infezione da SARS-CoV-2

Allo scopo di controllare gli ingressi di positivi o potenziali positivi all'infezione da SARS-CoV-2 all'interno del luogo dell'evento si mettono in atto le seguenti procedure:

- Dopo l'uso, i DPI monouso vanno smaltiti come materiale potenzialmente infetto.
- Vanno pulite con particolare attenzione tutte le superfici toccate di frequente, quali superfici di muri, porte e finestre, superfici dei servizi igienici e sanitari.

- Igiene personale -

Igiene delle mani

La corretta applicazione di misure preventive, quali l'igiene delle mani, può ridurre il rischio di infezione. - Il Presidente mette a disposizione appositi distributori di gel alcolici con una concentrazione di alcol al 60- 85%, Misure preventive quali l'igiene delle mani, l'igiene respiratoria e il distanziamento sociale, sono pubblicizzate all'interno del luogo dell'evento tramite appositi materiali informativi esposti.

Guidance for the use of the WHO Mass Gathering Sports Addendum Risk Assessment tools in the context of COVID-19

Guidance for organizers of sports events planning mass gatherings during the current outbreak of COVID-19

Routine planning for mass gatherings includes conducting risk assessments to determine the overall risk of disease spread. In view of the current outbreak of COVID-19, a disease-specific and event-specific risk assessment and mitigation checklist has been developed for use by host countries and organizers of mass gathering, to assess the specific risk of COVID-19.

This tool includes all factors from the general WHO risk assessment and mitigation checklist for mass gatherings as well as additional factors relating to sporting events, to enable event organizers to determine a more accurate overall risk score.

The following risk assessment and mitigation checklist should be used in conjunction with the WHO Mass Gathering Sports Addendum Guidelines. In order to accurately provide answers the following risk assessment and mitigation checklist, organizers must be knowledgeable on the current COVID-19 outbreak. The organizers should reference the daily global COVID-19 situation reports provided by WHO as well as the national COVID-19 situation reports, if available.

The tool must be completed in this Excel spreadsheet (see following tabs), as the scores are automatically calculated there. After the tools have been completed, the scores you receive in the Excel spreadsheet for both sections will need to be entered into the decision matrix found on the final tab ("Overall risk scores") for the overall risk score to be determined.

It must be ensured that this risk assessment is conducted with input from local public health authorities and that the necessary personnel with expertise in mass gatherings, risk assessment, epidemiology, and infectious disease control measures are included from the initial stages of planning.

For the overall determination, factors under consideration include:

- the current stage of the COVID-19 outbreak and known transmission dynamics
- the geographical distribution and number of participants, and their individual risk profile
- the risk assessment tool
- the mitigation measures that are currently in place or feasible

It is important to remember that while mitigation measures can reduce the risk of COVID-19 infections, they cannot completely eliminate the threat. It is WHO's view that all countries with community transmission should seriously consider postponing or reducing mass gatherings that bring people together and have the potential to amplify disease and support the recommended best practice of physical distancing. Any decision will be supported through the use of WHO tools, in particular the Risk Assessment for Mass Gatherings during COVID-19.

If movement restrictions and further national measures have been established in the country, the WHO RA does not apply.

Mass gathering risk assessment for COVID-19: addendum for sporting events

The questions below will enable sport event organizers to review the additional considerations specific to sporting events involving mass gatherings, and thus inform their risk assessment of COVID-19 associated with the event. This will help organizers to understand and manage any additional risk from COVID-19.

The risk assessment should be reviewed and reassessed regularly during the planning phase and updated immediately prior to the transition to the operational phase, especially in light of the rapidly evolving nature of the outbreak. Reference should be made to the latest technical guidance and situation reports on the WHO website.

The risk assessment for COVID-19 associated with the sporting event must be coordinated and integrated with the host country's national risk assessment for COVID-19. The person completing the questionnaire should include input from the local public health authorities, consult WHO's latest technical guidance and ensure that there is an up-to-date evaluation of the epidemiological situation.

Risk assessment

Please answer Yes (1) or No (0) to the following questions to determine a risk assessment score that incorporates factors specific to mass gathering sporting events

Additional risk of COVID-19 to the mass gathering sporting event	Yes (1)/No (0)	Score
Will the event be held in a country that has documented active local transmission of COVID-19 (community spread)?	1	1
Will the event be held in a single venue or multiple venues/cities/countries?	single	single
Will the event include international participants (athletes and spectators) from countries that have documented active local transmission of COVID-19 (community spread)?	1	1
Will the event include a significant number of participants (athletes or spectators) at higher risk of severe COVID-19 disease (e.g., people over 65 years of age or people with underlying health conditions)?	0	0
Will the event include sports that are considered at higher risk of spread for COVID-19 (eg, contact sports)?	0	0
Will the event be held indoors?	0	0
Total COVID-19 risk score		2

Mass gathering mitigation checklist for COVID-19: addendum for sporting events

Mitigation measures assess the current effort and planning to reduce the risk of spread of COVID-19 disease for the event. As mitigation measures can reduce the overall risk of the mass gathering contributing to the spread of COVID-19, they should be taken into account after the risk assessment has occurred to gain a clearer understanding of the overall risk of transmission and further spread of COVID-19, should the mass gathering be held. Together with the risk assessment score, the mitigation measure will contribute to the decision matrix and influence the assessment of the overall risk of transmission and further spread of COVID-19 in relation to the mass gathering.

IV. THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

- 1.** At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
- 2.** Horses and competitors must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
- 3.** Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
- 4.** Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
- 5.** The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.
